

Choose A Brew

Presented By **Team Joy:**

Tim Anderson

Ernest Davis

Lisa Maghee

Topics Covered

1. Concept and Motivation
2. Design Process
3. Technology Used
4. DEMO
5. Future Development Consideration

Concept

An app that allows users to find local microbreweries by state and rate the brews they've tasted

Motivation

1. Promote local business
2. **It's beer!**

Design Process

1. Research and choose API's
2. Pseudocode
3. Defined Team Roles
4. Defined Project Deliverables
5. Designed Front End Wireframe
6. CODE, CODE, CODE

Technology Used

Front End

- HTML
- CSS
- JavaScript
- jQuery
- D3
- AJAX

Backend

- Firebase

API's Used

- Brewery DB
- Google Maps

Demo

Future Design Considerations

1. Additional search criteria and user feedback
2. Include Geocoding API
3. Beer/Style information
4. Social Media Integration

Questions
